

Boeing 707-387C [ELINT Mod] - 1987, 1x, Converted 707-320C

Argentina

Type: Recon

Min Speed: 230 kt

Max Speed: 520 kt

Commissioned: 1987

Length: 44.6 m

Wingspan: 44.4 m

Height: 12.9 m

Crew: 5

Empty Weight: 66406 kg

Max Weight: 151320 kg

Max Payload: 0 kg

Propulsion: 4x JT3D-3

Sensors / EW: - Generic Doppler Navigation/Weather - Radar, Radar, Weather and Navigation, Max range: 64.8 km
- EL/L-8300 - ESM, SIGINT (ELINT & COMINT) w/ OTH Targeting, Max range: 926 km

The Boeing 707 is a mid-size, long-range, narrow-body four-engine jet airliner built by Boeing Commercial Airplanes from 1958 to 1979. Its name is commonly pronounced as "Seven Oh Seven". Versions of the aircraft have a capacity from 140 to 189 passengers and a range of 2,500 to 5,750 nautical miles (4,600 to 10,650 km).

The militaries of the United States and other countries have used the civilian 707 aircraft in a variety of roles, and under different designations. (Note the 707 and U.S. Air Force's KC-135 were developed in parallel from the Boeing 367-80 prototype.)
