AN/ALE-38 Chaff/Flare Pod

Sensor Pod
Type: Sensor Pod
- AN/ALE-38 Chaff/Flare Pod -  Sensor Pod.

OVERVIEW: The AN/ALE-38 is a pod-mounted, high-capacity, bulk Countermeasures Dispensing System (CMDS).

DETAILS: The AN/ALE-38 provides continuous dipole chaff dispersal and instantaneous bloom for laying chaff corridors, tuned to the 2-6 GHz and 10 to 18/20 GHz bands. Can be automatically activated by the aircraft warning receiver. The AN/ALE-38 is capable of laying an 80nm corridor.
