

Boeing 707-387C - 0, 3x, Converted 707-320C

Argentina

Type: Transport
Min Speed: 230 kt
Max Speed: 520 kt
Commissioned: 0
Length: 44.6 m
Wingspan: 44.4 m
Height: 12.9 m
Crew: 5
Empty Weight: 66406 kg
Max Weight: 151320 kg
Max Payload: 0 kg
Propulsion: 4x JT3D-3

Sensors / EW: - Generic Doppler Navigation/Weather - Radar, Radar, Weather and Navigation, Max range: 64.8 km

Weapons / Loadouts:

- Cargo [No Drop, 19 tons] - Cargo.
 - Passenger - (Incl luggage) Cargo.
-

The Boeing 707 is a mid-size, long-range, narrow-body four-engine jet airliner built by Boeing Commercial Airplanes from 1958 to 1979. Its name is commonly pronounced as "Seven Oh Seven". Versions of the aircraft have a capacity from 140 to 189 passengers and a range of 2,500 to 5,750 nautical miles (4,600 to 10,650 km).

The militaries of the United States and other countries have used the civilian 707 aircraft in a variety of roles, and under different designations. (Note the 707 and U.S. Air Force's KC-135 were developed in parallel from the Boeing 367-80 prototype.)
